Deco Palm Panel System

Deco Palm Panel System
SP-648PPN-SG

Deco Palm paneling is a recent addition to Smith & Fong Company®. Deco Palm has dimensions of 3/4" x 6" x 48" and joins together seamlessly with a simple finger-joint system. Ideal for hospitality, commercial, retail and residential, these unique and beautifully textured natural panels add richness to any environment.

“Bamboo is, without question, one of the most sustainable, versatile and aesthetically pleasing building materials known to man. New uses and applications for this wondrous material are discovered almost daily. Produced urea-formaldehyde free and FSC-certified, Smith & Fong has been working with laminated bamboo for more than 20 years and is pleased to offer you the current collection of grain patterns, textures and dimensions to suit any taste or application. Thank you for taking the time to consider Plyboo for your next project.”

Dan Smith

SoyBond™ is a proprietary bamboo manufacturing system developed in collaboration with Ashland Inc. and is based on the Soyad® adhesive technology. This product exhibits excellent mechanical properties that meet or exceed all current standards in the industry. Additionally, the workability and bio-based nature of the SoyBond panel make it both easy to work with and safe to use.
